PROFILE

3rd Year Computer Science Student from the City College of Calamba. Experienced in languages JavaScript, Java, C, Python, PHP, HTML, CSS, and Dart. Demonstrates industriousness and personal growth through learning and experience.

PROJECTS

Graphics Design Activities 2023

A collection of activities done in the Graphics Design subject, course code CEEL 301. First activities are done with pencil and paper. Latter activities are done utilizing the software GIMP.

Flint's Chuckwagon 2023

A western-themed grilling and assembly game made solely on HTML, Vanilla JS, and CSS. Done as a demonstration of the First-Come-First-Serve Algorithm.

Philippine International Attires 2023

A website showcasing different local and indigenous clothing of the Philippines. Done as a project for Web Design and Programming.

Video Editing and Animations 2017-Present

Experience in video editing for both personal and school works. I have been creating short films, movies, home videos, short-form content, music videos, and others.
